Short Description

- HDMI-D Male to Male (Micro-HDMI)
- HDMI-A to D Male Detachable connector
- HDMI 2.0 compatible
- High Speed with Ethernet
- Supports HDMI Ethernet Channel (HEC)
- Supports video resolutions up to 4K/60Hz
- Bandwidth up to 18Gbps
- Supports 3D display, HDCP2.2 and HDR
- Zinc Alloy housing
- Gold Plated Connectors for high signal quality
- Detachable Ports, Slim and Flexible: removable heads make installation easier, allowing you to guide the cables through the smallest holes.

Description

The Equip HDMI 2.0 Detachable Type D + A Active Optical Cable is designed to deliver superior high-definition connectivity with flexibility and reliability. Built with advanced active optical technology, this cable ensures stable signal transmission over long distances while maintaining uncompromised image and sound quality. Supporting HDMI 2.0 standards, it allows resolutions up to 4K at 60Hz with HDR, delivering sharp visuals, vibrant colors, and smooth motion for gaming, home theater, or professional AV setups.

What makes this cable stand out is its detachable connector design, offering both Type D (Micro HDMI) and Type A (Standard HDMI) interfaces in a single solution. This feature ensures broad compatibility with devices such as cameras, laptops, projectors, monitors, and televisions, reducing the need for multiple cables. The compact, lightweight fiber optic construction not only resists electromagnetic interference but also makes installation easier, especially in tight spaces or large venues.
