Lava Worm

schleich ELDRADOR CREATURES Lava Worm:

The prickly Lava Worm is incredibly agile thanks to its movable segments. Its back is covered with transparent spines that shimmer like flickering orange flames. It even has crystal thorns on its head. Its sharp yellow eyes spot intruders instantly. Take cover!

The Lava Worm feels right at home in the rugged crater landscape of the Lava World, where volcanoes seethe and magma flows. As anyone can attest, the Lava Worm is determined to defend its home! This is something it does extremely well, scaring off intruders with its prickly back armor and the crystal thorns on its head—not to mention a ferocious gaze whenever anyone gets too close.
